

**HOUSING<sup>TM</sup>  
TECHNOLOGY**  
2019 | CONFERENCE AND  
EXECUTIVE FORUM

Our journey: Digital  
transformation and the  
customer experience

One of the largest providers of  
affordable housing in the  
Midlands

70,000 customers

Working across 54 local authority  
areas

Own and maintain 33,000 homes

1,570 employees

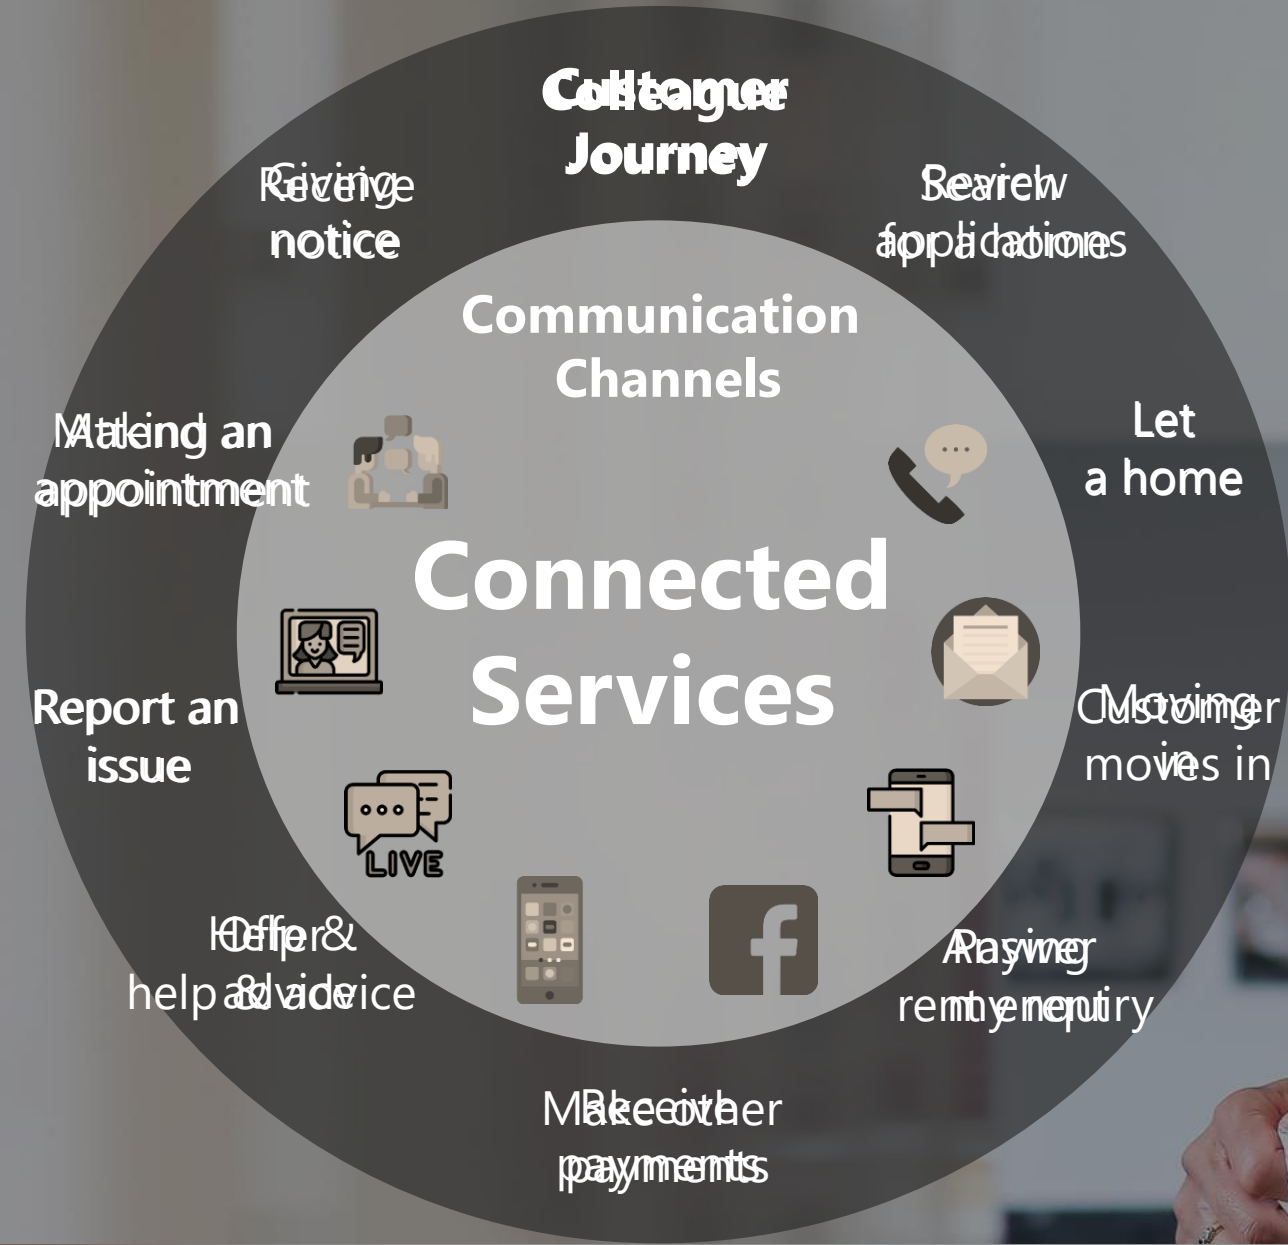

Work to prevent homelessness  
and provide high quality housing  
options for older people

# Our vision for a digital future

# What challenges did we face?

Customer  
needs

Expertise

Working  
practices

Mobilisation

Legacy  
technology

Making the  
case

Integration

# Finding a way forward

## Customer

Collaborate  
across  
sectors

Learning  
from  
other  
sectors

Customer  
profiling

Establish a  
customer  
panel

Community  
digital  
champions

Backlog  
prioritisation

# Why Low Code?

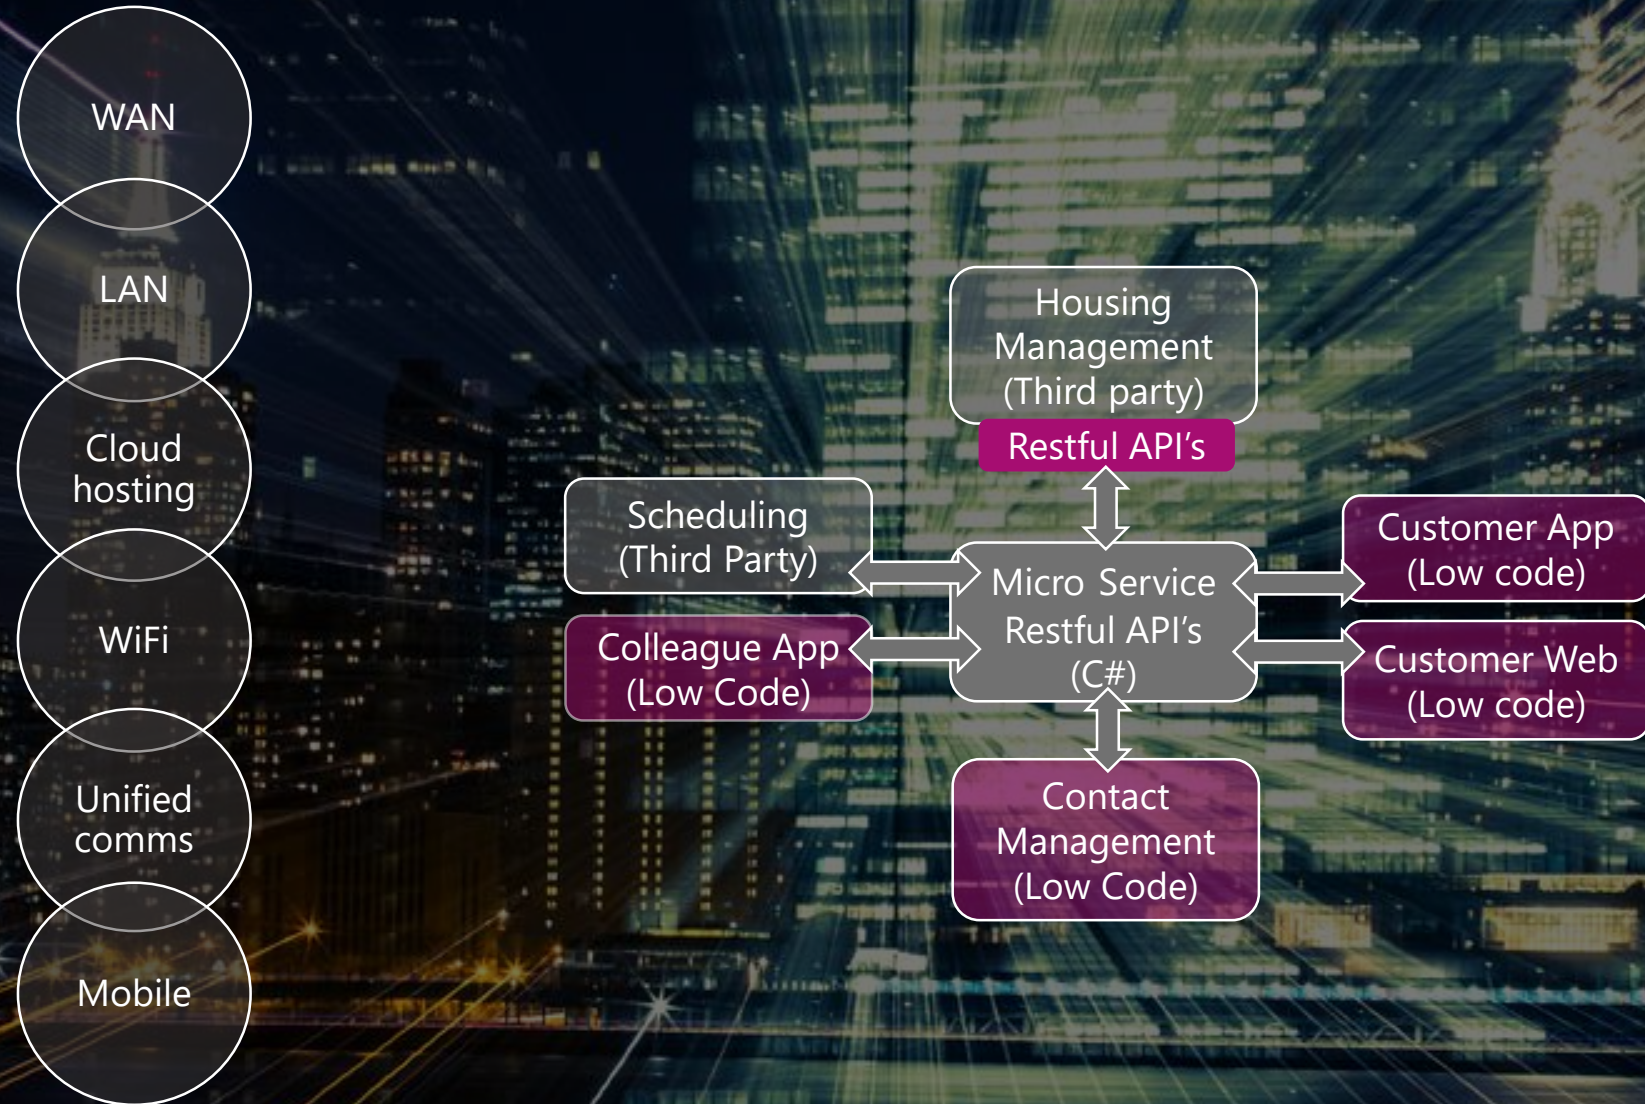

- Flexible solution
- Enables faster delivery
- Design best practice embedded
- Hosting included
- Easy API integration
- Extensible support

# The software solution

# The infrastructure solution

# Product Roadmap

## Development

## Launch

**February 19: 220 Customers Approached, 254 Downloads, 185 Registrations (84%) , 166 Repeat Users (89%)**

# Lessons

The background image shows a bright, modern office space. Several people are seated at long, light-colored wooden tables, working or talking. The room has large windows on the right side, offering a view of other buildings. The ceiling is white with a grid pattern and features several square pendant lights with black frames. The floor is made of light-colored wood. The overall atmosphere is professional and collaborative.

Developer  
experience  
required

Not all  
developers  
want low  
code

Agile  
experience  
helps

Low code  
does not  
equal low  
cost

Don't start  
engagement  
too early

Start  
infrastructure  
changes  
early
