Pay My Rent System

Pay My Rent: What Matters

To enable residents to manage their finances and pay their rent

- Residents circumstances are understood in order to provide assistance when needed
- Residents receive help quickly and efficiently
- Residents are given clear and correct up-front payment information
- Residents pay by direct debit at a time that suits them
- Residents have help to maximise their income
- Residents are helped to stay out of debt

Pay My Rent: What Matters

To enable residents to manage their finances and pay their rent

- Residents circumstances are understood in order to provide assistance when needed
- **Residents receive help quickly and efficiently**
- Residents are given clear and correct up-front payment information
- Residents pay by direct debit at a time that suits them
- Residents have help to maximise their income
- Residents are helped to stay out of debt

Pay My Rent: Residents receive help quickly and efficiently

- What would we expect the resident to do? – Forecast
- What did the resident do? – Actual
- When do they not equal each other? – Actual – Forecast = Variance.
- HELP OUR OFFICERS KNOW WHAT ARE THE VARIANCES.

Payment Plans

Propose that each resident account has a **payment plan**:
How much is paid, how often, on what date, by what method

THE CHALLENGE

- 11,000+ tenancies.
- New data capture – more work for officers.
- Remote workers
- Areas of no coverage across Wales
- 40 staff all need to know
- Based all across Wales

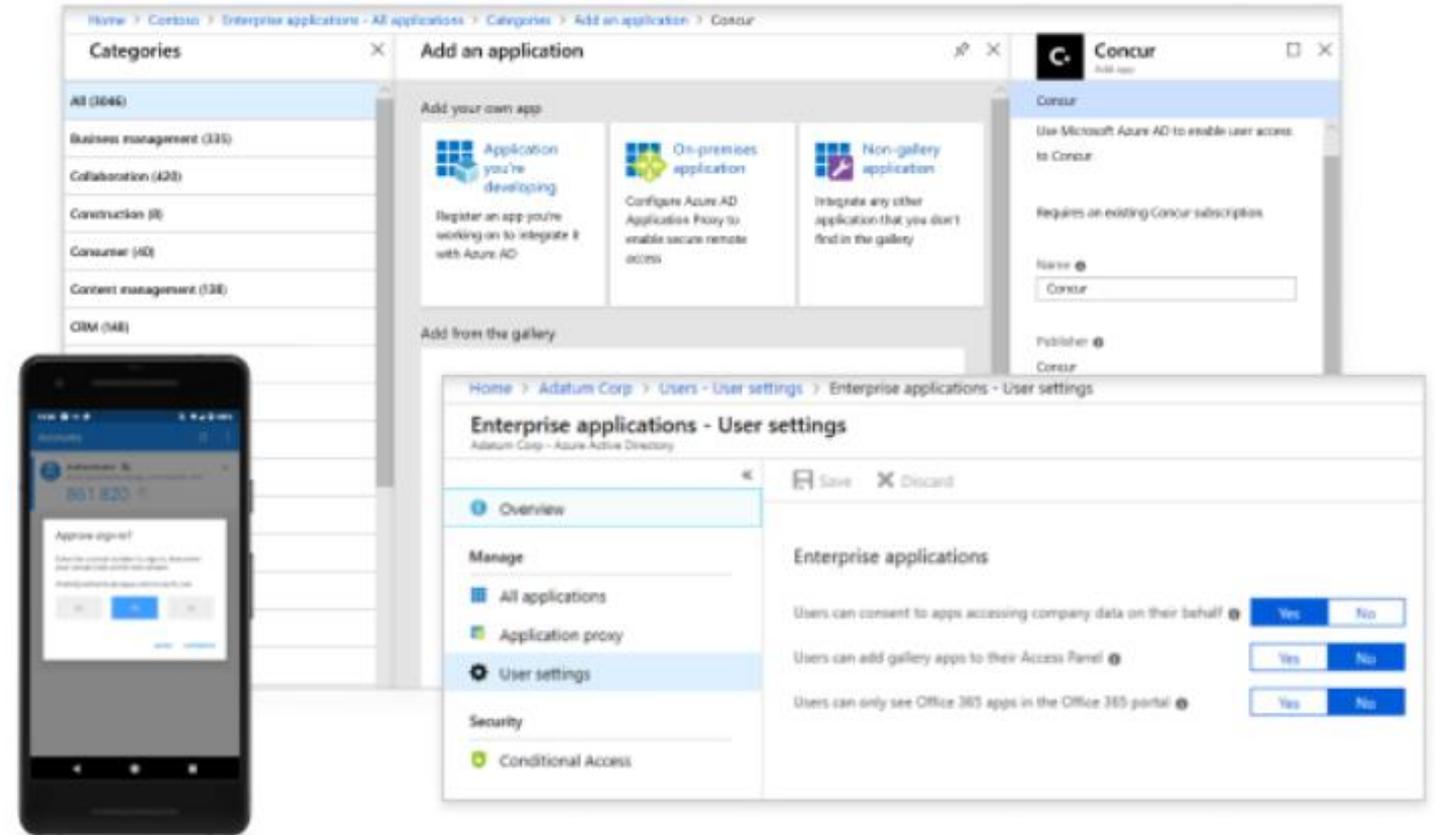

The Technical Challenge

Must be secure

- Devices connect using Active Directory Connect.
- Ensures devices are verified even though they are not directly connected to the corporate LAN.
- IOS security for Apple devices

Must work offline

- Providing data inside the residents home is key
- Poor cellular coverage even in cities, means must work offline
- Ability to pause and return to what you are doing
- Ability to sync when signal restored

A screenshot of the Resco Mobile app interface. The background is blue with a geometric pattern. The text 'Resco Mobile' is prominently displayed at the top, followed by 'Top features at a glance'. Below this, there are ten circular icons arranged in two rows, each with a corresponding label: 'Fast Synchronization', 'All-in-one', 'Offline', 'Maps, GPS, Route Planning', 'Customizations and Branding', 'Offline Reports', 'Multimedia Management', 'Device Security', 'Mobile Audit and Analytics', and 'Saves costs and time'. In the top right corner, there is a dark overlay showing a mobile phone status bar with 'Cell C', '3:18 PM', and '55%' battery. Below the status bar, a menu is open showing 'All Tasks' and 'Offline Mode'. Under 'Offline Mode', there is a list of tasks, including 'Attachment task' with a timestamp 'Mon 3:57 PM' and 'Attachment - 28' with 'File Attachment'.

Must work on mobiles

- User Experience is crucial
- Accessible devices, light but functional
- Good battery life
- Straight forward to update information

Must be real-time
